

# Environmental Policy

Ranger Drilling strongly believes that protecting and improving our environment is not just a moral and legal responsibility but also an investment for our future and a prerequisite for us to achieve our primary mission in the exploration mining industry to the highest standards.

Ranger Drilling will take all reasonable and practical steps to minimise the ecological footprint our activities place on the environment by:

- Ensuring compliance with all applicable environmental laws, regulations, standards and other requirements applicable to our operations, and the monitoring, measuring and improvement our Environmental Management System in accordance with ISO 14001.
- Ensuring all employees and contractors are fully aware of their environmental responsibilities and that they take reasonable care to avoid adversely impacting on the environment through any act or omissions at work.
- Implementing risk identification and hazard management systems which are relevant and suitable for Ranger Drillings operational and business exposures.
- Maintaining and improving relevant procedures, systems, information, training, recognition programs and organisational structures to support and communicate effective environmental management practices.
- Encouraging the reduction of waste and consumption of natural resources in our operations by purchasing environmentally friendly products and recycling waste wherever possible.
- Effectively managing and investigating all environmental incident occurrences and ensuring that practical management and rehabilitation practices are adopted.
